ATATO

Started in 2017
Based in Bangkok
9 people Jan'19

GUILLAUME

Was IT director for MNC
12 years in IT
Ethereum since 2015

MAXIME

Was MD for largest
food trading house
12 years in food industry

THE PROBLEM

for consumer goods traceability

DATA EXISTS

In paper, Excel or dedicated apps
For insurance, claims purposes
Often is not structured

IN VARYING QUALITY

Usually no security protections
Can be modified after the fact
People make mistakes

OFTEN NOT PUBLISHED

Might be sent to the client
Sometimes just archived
Consumers usually don't see it

OUR SOLUTION

we make blockchain easy

NEW CAPABILITIES

- Immutable data storage
- Fully traceable actions
- A worldwide shared computer

WE ABSTRACT COMPLEXITY

- Our software is live today
- Works like any cloud service
- API based service

INTEGRATE WITH YOUR APPS

- Connect to your existing servers
- No upfront investment
- Pay only for what you use

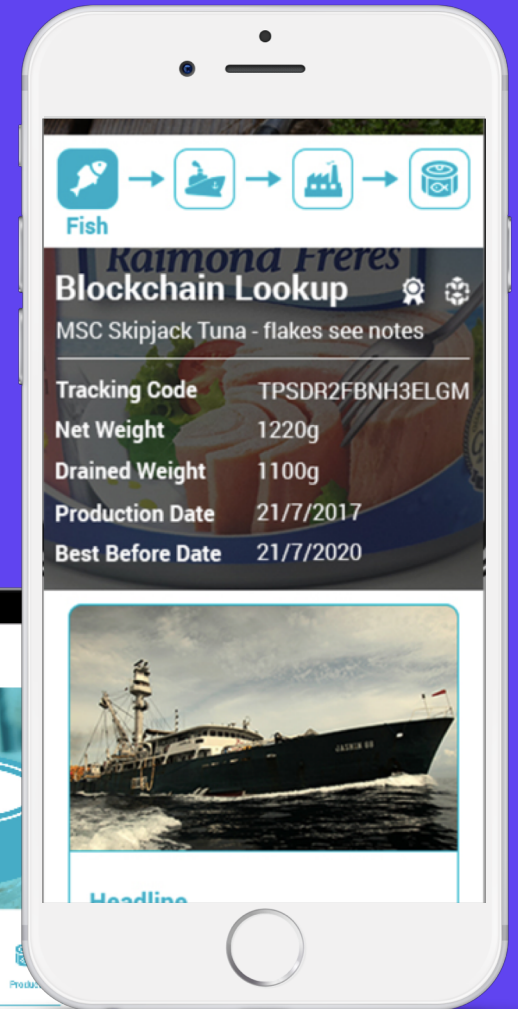

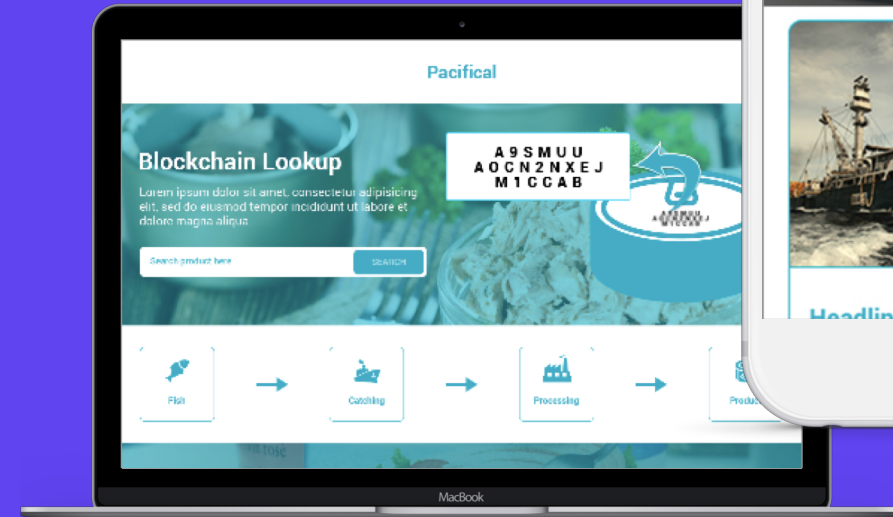

ATATO BLOCKCHAIN NOTARY

LIVE and running the first large scale
blockchain tuna traceability project

Ethereum based cloud service to notarise
records on blockchain
